

# TIM HARMAN

P H O T O G R A P H Y

My wedding day coverage is completely *full service*. I cover the pre-ceremony, ceremony, and reception and always have a second photographer there to capture another point of view. Your images are *always* delivered in print ready format on two sets of archival gold DVDs. I edit, optimize, and color correct each of your images and then grant you unlimited personal use of your wedding images. I create a custom, on-line preview slide show featuring the best images of the day. This is a stand-alone web link, which can be emailed to all your friends and family.

At your request, I will provide viewing of all your images in an on-line gallery where you and your friends and family have the option of purchasing prints from the professional lab I use. You are free to order prints through me or have your own prints made.
